Roblox Hiring Manager

2850 S. Delaware St.

San Mateo, CA 94403

Dear Roblox Hiring Manager:

I am writing in response to your advertisement in the October 2025 Handshake UCF posting. Would you please consider me for the Software Engineer [Summer 2026] Intern position? I believe that my academic training in computer science at University of Central Florida, along with experience while working in for the US Coast Guard qualifies me for the position.

My education at University of Central Florida has given me a strong background in computer science. I am currently a Junior concentrating on artificial intelligence and database systems. I currently have a 3.7 GPA at my University. I also transferred to the University of Central Florida from Arizona State University(ASU) where I was pursuing a degree in Software Engineering. At ASU, I had a 3.78 GPA. During my studies I have developed a good level of experience with data structures, algorithms, Object Oriented software development and familiarity with different software engineering paradigms such as Agile.

While working at the US Coast Guard as a Marine Science Technician for almost 20 years, I had to become proficient with many computer devices and software. I managed databases for my unit would update our unit website when needed. I have experience not only working effectively in a team but also leading teams. I assumed the senior inspector and coordinator role at my last two units. I also have experience in conducting training and presentation skills. I also managed many projects including conducting large scale multi-agency operations involving local, state, tribal, and federal agencies.

My resume provides an overview of my most recent education and experience. Could I meet with you at your convenience to discuss my qualifications for this position? Please leave me a message any time at (727) 512-0938 or email me at leocrow32809@yahoo.com

Yours truly,

Julio Maldonado
